

Revolutionary Productivity Tools for Macola

SOFTWARE PRODUCTS as of June, 2015

*All of our software products work directly with your Exact Macola software and do not require Macola Flexibility.
All of our software products work with Exact Macola Progression, Macola ES and Macola 10 unless noted.*

PULSE DASHBOARD Realtime Data Management Suite

PULSE Dashboard & Reporting Software digs deep into your Macola database to pinpoint opportunities to reduce backlogs, optimize inventory, reduce costs and increase your profits.

Executive Module (5 users)

Sales and Marketing

Inventory

Purchasing

MRP/Material Requirements

Purchase Order Generator (new)

Retail Point of Sale (POS) Analytics (new)

Customer Service / Shipping

Financial Control

Inventory ABC Class Generator

Production Control (POP or Shop Floor Control)

Designer

Recalculate Reorder Levels & Vendor Lead Times (new)

Demand Planning (new)

PULSE LOCKBOX Bank Lockbox System Integration

PULSE Lockbox eliminates manual keying of customer remittances by importing your bank's file of cash receipts. Lockbox lets you see that each receipt was properly matched to your accounts receivable file before posting.

PULSE eCOMMERCE Automated Website Order Import

PULSE eCommerce software eliminates manual re-keying of customer orders by importing them directly from your web site, web-based EDI service, or spreadsheets. After shipping, it updates your web site with tracking numbers or creates advanced shipping notices (ASN) for improved customer service.

PULSE ARCHIVE Utility Scheduled Data Archiving

PULSE Archive utility speeds up your Macola processing by archiving unneeded data. After you establish a retention policy for your major Macola data files, Archive automatically removes unneeded data and moves it to your archive database. Archived data can be accessed at any time into the future using standard Macola screens and reports.

NEW! PULSE SECURITY for Progression User + Data Access Control System

PULSE Security utility for Progression provides centralized control and detailed reporting of individual user access to sensitive Macola data. User security access rights can be added or removed right from your screen.

PULSE UTILITIES Quick, Easy Solution that save time & increase productivity
